

VARIETY
ALUMINIUM FABRICATION

» Abouts us

V

ariety Aluminium Fabrication & Designers is a leading name in India's aluminium fabrication and architectural solutions sector, delivering world-class craftsmanship, innovative engineering, and uncompromising quality for over a decade. Headquartered in Kerala, our company has grown into a trusted partner for residential, commercial, industrial, institutional, and export-grade aluminium works.

With a strong commitment to excellence, we specialise in the design, fabrication, and installation of premium aluminium windows, doors, façades, structural glazing, ACP cladding, spider glazing, partitions, skylights, handrails, louvers, and customised architectural systems. Every product we create reflects precision engineering, superior durability, and international performance standards.

At Variety, we combine advanced technology with skilled workmanship to deliver solutions that are aesthetically refined, weather-resistant, energy-efficient, and structurally robust. Our fabrication process follows stringent quality controls, ensuring long-lasting performance, smooth functionality, and refined finish in every project we undertake.

Supported by a professional management team—covering operations, accounts, sales, procurement, and field execution—we ensure timely project completion, transparent communication, and end-to-end service that exceeds client expectations. Our customer-centric approach has helped us build long-term relationships with architects, builders, corporates, institutions, government bodies, and homeowners across India.

Driven by innovation, quality, and trust, Variety Aluminium Fabrication & Designers continues to expand its footprint with a vision to deliver global-standard aluminium solutions for the modern world.

CEO

A

ajith Kumar is the Managing Director of Variety Aluminium Fabrication & Designers, a leading aluminium architectural solutions provider based in Kerala, India. With a strong vision for innovation and a commitment to international-quality workmanship, he has transformed the company into a trusted name in aluminium fabrication, interior-exterior solutions, and customised architectural systems.

With more than a decade of hands-on industry experience, Ajith Kumar has led the organisation through continuous growth by integrating modern technology, precision engineering, and customer-focused practices. His leadership philosophy blends technical expertise with strategic planning, ensuring that every project—from residential installations to large commercial and industrial developments—meets world-class standards of quality, safety, and performance.

Ajith Kumar oversees operations, project planning, vendor management, exports, and client relations, ensuring seamless execution and timely delivery across all projects. His ability to understand architectural requirements and convert them into durable, aesthetic, and functional aluminium solutions has earned him long-lasting partnerships with architects, engineers, builders, corporates, and homeowners.

Driven by a passion for excellence, innovation, and integrity, Ajith Kumar continues to lead Variety Aluminium Fabrication & Designers towards new milestones, with a vision to build globally recognised aluminium systems that enhance the future of modern architecture.
